SITUATION IN LITHUANIA

TAVO EUROPA
ANGOULEME,
29TH JUNE 2023

INTRODUCTION

IN LITHUANIA, AS IN ALL OF EUROPE, IT IS EMPHASIZED THAT EACH STATE CITIZENS WANT A HIGH LEVEL OF SERVICE NOT ONLY FROM THE BUSINESS SECTOR, BUT ALSO FROM THE STATE GOVERNMENT INSTITUTIONS.

DUE TO THE EVER-INCREASING MISTRUST OF CITIZENS IN GOVERNMENT INSTITUTIONS, DOUBTS ABOUT THEIR ACTIVITIES EFFICIENCY AND THE BENEFITS OF THE DECISIONS MADE, AS WELL AS THE AIM TO MODERNIZE THE PUBLIC ADMINISTRATION SECTOR, ENCOURAGED THE AUTHORITIES TO LOOK FOR WAYS TO BRING THE PUBLIC CLOSER TO THEM AND STRENGTHEN THE DIALOGUE WITH THEM.

PROCESS

- VAST USE OF IT

- E.GOVERNMENT

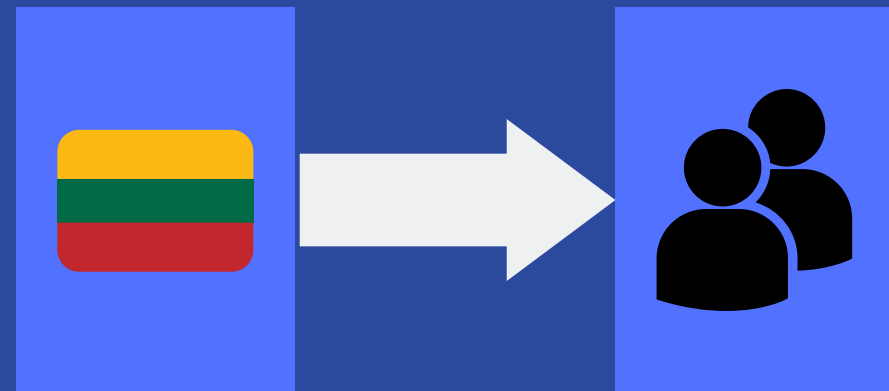

- DEVELOPMENT OF E.DEMOCRACY

Unfortunately, in Lithuania, there are very few detailed research and information about e- democracy practices.

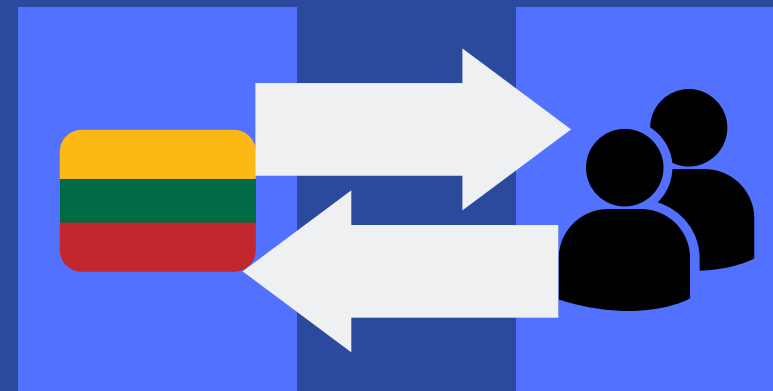

Most of them are dating to 2011 or even older.

The main e. democracy goals are:

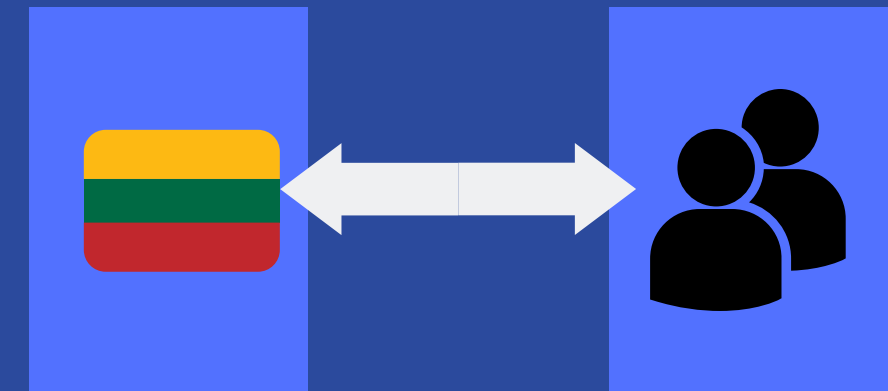

INFORM

takes place with the help of websites, portals, reports.

CONSULT

a way of gathering public opinion on a specific policy issue

INVOLVE

it is public participation using ICT

PARTICIPATION

*PUBLIC PARTICIPATION IS A KEY INGREDIENT IN THE
RECIPE FOR DEMOCRACY,*

Participation is a two-way street and two parties are involved: the decision-making party is the *authority, but* there is also a participant in decision-making, that are the *citizens.*

The benefits sought by these two countries are similar – participate in the governance of their country.

2021 data of the "Involved Citizens" survey showed that even 81 percent Lithuanians would willingly participate in electronic voting on decisions related to local services.

However it seems that most of the possibilities are used by middle aged-well educated public.

THE E-GOVERNMENT DEVELOPMENT INDEX

*PRESENTS THE STATE OF E-GOVERNMENT
DEVELOPMENT OF THE UNITED NATIONS
MEMBER STATES.*

assessment of;

- the website development patterns in a country
- infrastructure
- accessibility
- education levels
- how country uses ICT to promote and include

Position N. 24!
